Renice industrial CFast Card is a compact memory card with SATAIII 6.0Gbps interface, compliant with the CFast 2.0 standard and ATA protocol. Designed with high performance, reliability and low power consumption, Renice CFast Card can be a good storage device to next generation embedded applications and industrial systems.

Specification		X5A	
Interface		SATAIII 6.0Gbps	
Form Factor		CFast Card	
Sustained Speed		500/300MB/s	520/470MB/s
Capacity		4GB-128GB	320GB, 512GB, 640GB
NAND Flash		SLC	pSLC
Data Integrity	Power-off Protect		√
	Advanced Error Detection & Correction		√
Reliability	Shock	1500G, 0.5ms (half-sine wave, ±X,±Y,±Z axis, 1 time/axis)	
	Operating Temperature	-40°C~+85°C
